

PRCC Annual Stakeholder Meeting
Gaseous Fuels Committee
June 18th , 2026

Gaseous Fuels Committee Mission & Objectives:

Mission Statement: Encourage the adoption of alternative fuel for goods transportation and the equitable deployment of fueling infrastructure in Western Pennsylvania.

Objectives:

- Communicate regularly about new developments and opportunities.
- Advocate as a coalition for supportive policies, programs, and funding.
- Encourage equity in terms of geography, use-case, population, ability, and other diversity factors.
- Serve as an advisor to PRCC Coordinator on Gaseous Fuel issues.
- Align with, draw upon, and influence the Pennsylvania DEP DRIVE PA FORWARD Goals and the AFIG Initiatives.
- Align with the goals in the Propane Education Research Council's Strategic Plan

Education & Outreach

Identify the greatest **impact opportunities** in the Region.

Infrastructure

Establish regional infrastructure targets, identify gaps, and develop ideas for high-utilization installation sites to fill those gaps.

Focus Areas

Funding

Assess current funding opportunities and identify ways to promote the availability of funds throughout our region.

Vehicles

Work with Fleet Managers to identify vehicles that would work in fleets.

Deep Dives with the Experts

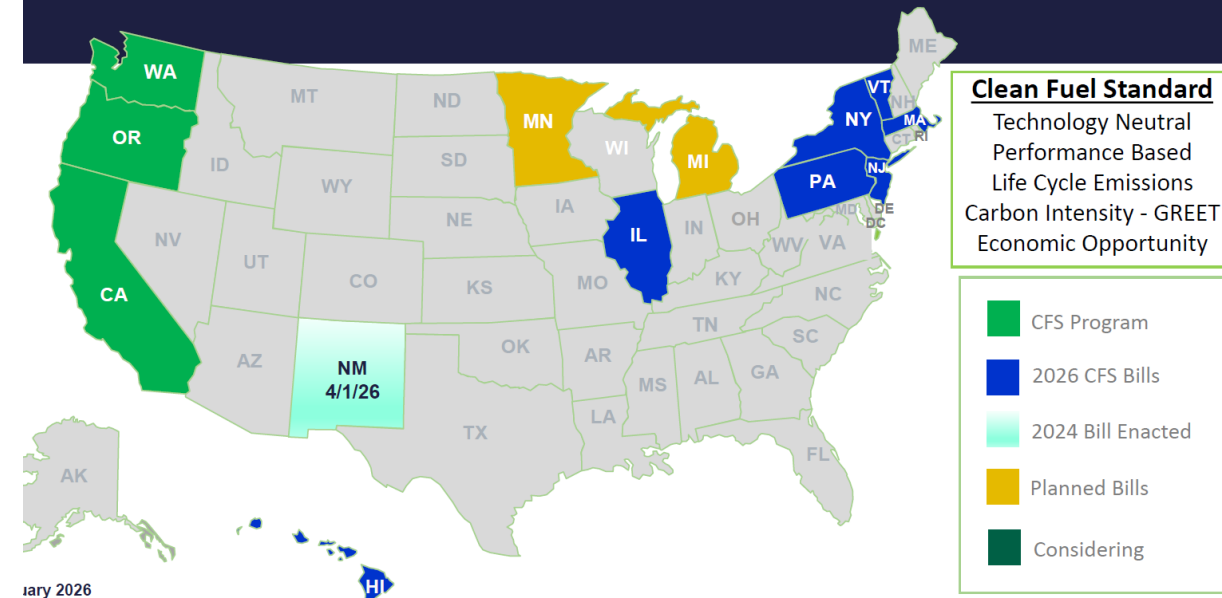

X15N™

Patrick Campbell, Cummins X15N
May 19th 2026

**More Guest
Speakers on Deck!**

Daniel Gage, The Transport Project
February 24th, 2026

2026 State Clean Fuel Standards & Potential

The next meeting is August 18th at 10am EST – open to all!
